1. Claims 1-4 and 7-12 are allowed. Claims 1, 7 and 10 are independent.

2. The following is an examiner's statement of reasons for allowance:

The terminal disclaimer filed October 24, 2007 has been approved. The terminal disclaimer has overcome the nonstatutory obviousness-type double patenting rejection of claims 1-4 and 7-12.

Independent claims 1, 7 and 10 and their dependent claims 2-4, 8, 9, 11, and 12 are allowable over the prior art of record.

Claim 1 as amended in the amendment filed April 13, 2007 includes the allowable subject matter of claim 3 indicated in the previous Office action mailed Jan. 11, 2007. Claims 7 and 10 were rewritten in independent form in the same amendment responsive to the indication that claims 7 and 10 were allowable if rewritten in independent form.

The reasons for allowance given in the previous Office action mailed April 13, 2007 are still valid after the updated search. The reasons are repeated below.

Claims 1 and 7 are allowable because the closest prior art of record Tom et al. (U.S. Patent No. 6,369,918) does not teach or suggest both moving the optical sensor and moving the object or original in reducing distortion of an image of the original. Tom et al. discloses moving either the optical sensor or the original, not both, in reducing image distortion of an image of the original.

Claims 2-4 depend on claim 1. Claims 8 and 9 depend on claim 7.

Similarly to the reason given for claims 1 and 7, claim 10 is allowable because the closest prior art Tom et al. (US 6,369,918) does not disclose moving both the optical sensor and the object/original in reducing distortion of an image of the original.

Claims 11 and 12 depend on claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
